

## DUSTERS

### Minisolf

Lt. 80

Minisolf is the smallest of our range of products and guarantees the highest level of reliability. Easy to use.

### S520 - S530

Lt. 200-300

### S420 - S430

Lt. 200-300

Thanks to their multiple options of performances and to an incredible ability to adapt to all sorts of cultivations, with the multiple distribution systems, the models Serie S4-S5 fulfil the needs of any farms.

### New Maxi Lt. 600

This duster has been conceived to achieve a high endurance (approximately 10 hectares). Its great performances, along with its solid and compact structure, guarantee a top level of efficiency and reliability.

## WEEDING MACHINES

### DS

Lt. 200-300-400

This is a high-technological equipment, incredibly versatile and easy to handle. A centrifugal pump for a homogeneous and consistent delivery (with no flow intermittences) even under low pressure use (1 bar).

## Wrap-a-round boom

For Link 55 sprayers

### ROB3

## Variable rate sprayer

### VRT

(Variable Rate Technology)

## E.P.A. - Delivery Proportional to the Advance

It is the unique system that guarantees a **CONSTANT DELIVERY** of liters per hectare

# LOW VOLUME SPRAYERS

PNEUMATIC VENTURI AIR

## New Plus 42-45-50-55

Lt. 300-400-600

The mounted sprayers NEW PLUS Series and NEW PLUS GOLD Series (equipped with rinsing tank integrated into the main tank) assure a high manoeuvrability in all sort of conditions as well as guaranteeing a great autonomy in their distinguished compact shapes.

## Blitz 45-50-55

Lt. 600-800-1000-1500-2000

The trailed sprayers Serie BLITZ, available in various models which can be supplied with a wide range of distribution sprayheads, have been realized to perform within large areas, however they still maintain an extremely compact shape and they are indeed quick and easy to control.

## Link 50-55

Lt. 800-1000-1500

*"it follows you... like a shadow"*

The patented and articulated Serie LINK sprayers solve the problem of spraying within narrow or limited spaces but still keeping the working capability for medium/large areas.

Patent n° 1312881

## Blitz Avant 50-55

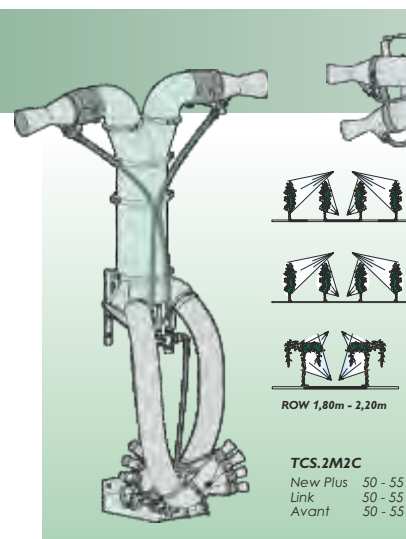

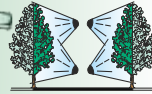

Lt. 800-1000

This trailed machine's peculiarity is its distribution sprayhead situated in front of the tank. Extremely compact and incredibly reliable on the long term.
