### ARTICULATED LOW VOLUME PNEUMATIC SPRAYER **LINK 50 EQUIPPED WITH GREEN HUG SPRAYHEAD**

- THE GREATEST VERSATILITY IN FIELD THANKS TO THE NEW FRAME THAT ALLOWS THE ARMS TO BE FOLDED AND ADJUSTED IN WIDTH AND HEIGHT
- HIGH PRODUCTIVITY THANKS TO TARGETED TREATMENTS IN ESPALIER SYSTEMS WITH PASSAGES EVERY 2 ROWS (INTER-ROW WIDTH FROM 2 TO 3 METRES)
- GREAT DRIFT CONTROL EVEN IN WINDY AREAS, THANKS TO THE OPPOSING FLOW OF THE DIFFUSERS
- RESOURCE OPTIMIZATION FOR TIME AND COST SAVING
- HIGH MANEUVERABILITY WHICH ALLOWS VERY TIGHT TURNING STEERING

ARTICULATED LOW VOLUME PNEUMATIC SPRAYER LINK 50 EQUIPPED WITH GREEN HUG SPRAYHEAD

LINK 50 - Articulated Sprayer

GREEN HUG - 2 HANDS 2 HANDS SPRAYHEAD WITH HYDR.MOVEMENT FOR FOLDING AND WIDTH ADJUSTMENT

- The articulated low volume sprayer model Link 50, with pneumatic atomization based on the "Venturi Tube" principle, performs chemical treatments with a low volume of water. The fan group is mounted on the 3-point hitch frame and the distribution sprayhead is directly fitted on the fan group.

- The sprayhead can be used on:
  - Blueberries in tunnel
  - Raspberries in tunnel
  - Raspberry bushes
  - Vineyard
  - Vineyard in rows in windy areas
